Voi™ Laminate Desking

Voi Gets Your Colors Coordinated

These carefully selected palettes of coordinating finishes are organized to help you express whatever style you're after. The laminates, paints, and fabrics in each palette are designer-selected to work together. For a complete list of all HON finish options, please consult your HON Pricer.

1. Pick your palette

Each Voi palette provides choices to help create a unified workplace aesthetic. The palettes include laminates, paints, seating fabrics, workstation panel fabrics, and storage cube colors. Consider them your design idea generator.

2. Pick your laminate

For a contemporary look, use these palettes to select the right woodgrain with the right solid or mesh laminate. You can specify one laminate for storage chassis and another for storage door/drawer fronts—or one for worksurfaces and another for storage and end panels. Using the edgeband matrix, you can coordinate edgebands to match worksurfaces and storage chassis.
